SKILLS

React.js, JavaScript, Node.js, Python, Express, PostgreSQL, Git, Figma

EDUCATION

Software Engineering Fellowship - The Marcy Lab School

Brooklyn, NY | Mar 2025

- Completed 2,000 hours of coursework in web development, CS fundamentals, and leadership development
- Developed proficiency in HTML/CSS, JavaScript, Python, NodeJS, ReactJS, SQL, and AWS

Associate of Applied Science - Kingborough Community College

Brooklyn, NY | Aug 2023

- Completed coursework towards a BA in Computer Information Systems
- **Computer Information Systems courses include:**
 - Java Programming II
 - C Programming II
 - Applied Computer Architecture
 - HTML Authoring and JavaScript

SOFTWARE PROJECTS

2D Running Game | [Github](#) | [Drive Download](#)

April 2025

- Built a 2D Single Player Platformer game using the PyGame library as the Marcy Lab's Capstone project
- Built support for score-keeping, boost for coins and progressively faster enemies using Python
- Implemented Postgres database to store users and their scores
- Created a Mac Application for the game

Random User Generator | [Github](#) | [Website](#)

June 2024

- Built a single-page application to display random users by sourcing information from RandomUser.me API within a group of 2
- Owned the front-end build out of the application using Vite, Github Pages, Vanilla JS, HTML5, CSS3, and Node.js
- Collaborated using Git and tracked work across the team using Tickets on Scrumboard
- Presented the project to the Cohort

Palette Picker | [Github](#) | [Website](#)

June 2024

- Implemented random color generation and state-driven DOM updates without page reloads
- Added local storage for saving, retrieving, and deleting palettes (CRUD operations)
- Organized code with modular functions and clear separation of concerns for maintainability
- Demonstrated use of Flexbox, Grid, and CRUD functionality (Create, Read, Update, Delete)

EXPERIENCE

Guest Advocate - Target

Brooklyn, NY | Nov 2025

- Delivered exceptional customer service by assisting guests with purchases, returns, and product inquiries in a fast-paced retail environment
- Operated cash registers and handled cash, card, and mobile payments accurately and efficiently
- Resolved guest concerns professionally to ensure a positive shopping experience
- Maintained knowledge of current promotions, store policies, and product locations to support guest needs

Software Engineering Fellow - The Marcy Lab School

Brooklyn, NY | Mar 2024 - Feb 2025

- Achieved proficiency in HTML/CSS, JavaScript, Python, NodeJS, ReactJS, SQL, and AWS
- Contributed to the open-source community by writing blogs about programming technologies such as Python and more
- Communicate class trends, wins, and challenges to the Lead Instructor and Program Officer to chart content support

Barista - Starbucks

Brooklyn, NY | Jul 2023 - Dec 2024

- Greet customers, take orders and provide a friendly and welcoming experience
- Craft high-quality coffee and beverage orders according to Starbucks recipes
- Maintain cleanliness, restock supplies, and follow food safety guidelines
- Collaborate with coworkers to ensure smooth and efficient service

Crew Member / Cashier - Whole Foods Market

Manhattan, NY | Aug 2022 - Jun 2023

- Achieved satisfactory ratings for preparation of online orders
- Served as a key member of the front-end team, assisting customers during the check-out process; performing cash register functions; bagging groceries; and working at the customer service desk

Crew Member - Shake Shack

Brooklyn, NY | Sep 2017 - July 2022

- Greeted and distributed menus to guests upon entry
- Assisted in maintaining sanitation and safety standards by cleaning and tending to work areas as necessary
- Fulfilled customer orders, processing and handling cash and credit transactions at a cash register
- Trained new employees in food prep, service and safety procedures

Web Development - Animoto

Brooklyn, NY | June 2017 - Aug 2017

- Shadowed and collaborated with senior-level developers throughout the software development lifecycle to drive development and testing efforts to completion
- Developed websites and programs for cross-browser and cross-device compatibility
- Wrote code in HTML and CSS to implement site features and functionality based upon business and user requirements
- Leveraged CMS to make updates to sites; tested code to mitigate breaking changes and ensure requirements were fulfilled
